Box Power CIC Performance Table December 2023

**Our summary findings of a
c.£4,500,000,000 public sector
energy spend**

**Make the change.
Make a difference.**

Summary Content

- Page 2: Headline figures.
- Page 3: Report summary values.
- Page 4: Easy comparisons of similar usages but with very different cost values.
- Page 5: How the UK's high-profile organisations compare.
- Page 6: Major local authorities alphabetically with highest overall (electricity and gas combined) average p/p/kwh prices purchased.
- Page 7: Local authorities ranked by largest electricity kwh consumers.
- Page 8: Local authorities ranked by largest gas kwh consumers.
- Page 9: How different Government departments compare.
- Page 10: How our Emergency Services sample compares.

Headline Figures

- £660,000,000 is the cost **local authorities** could have saved if the top half of the table on pence per kwh price purchased, had achieved the same rate as the bottom half.
- Central Government appears to have saved in the region of £1,200,000,000 by not paying for energy at the same pence per kwh prices as the local authority average during the period.
- From our early data £307,000,000 is what Academy Trusts may have saved if they had accessed energy at the same pence per kwh prices as the Department for Education. Further research from our sample is clearly needed.

Report Summary values

No	Type	Power Top half	Power Bottom half	Gas Top half	Gas Bottom half	Total kwh's	Total cost purchased incl vat
300	Local Authorities	41.5	23.3	11.5	6.0	12,811,793,787	£2,187,466,355
23	Multi-Academy Trusts	47.6	21.5	13.3	5.2	536,812,916	£9,141,924
16	High-Profile names	31.7	17.7	12.1	4.7	504,832,886	£79,451,249
40	Government related	23.8	17.6	7.4	4.8	12,840,457,790	£1,857,524,161
6	Emergency Services	48.6	24.3	10.1	5.0	321,501,063	£49,350,637
14	Universities	33.1	20.0	8.4	4.8	2,239,970,348	£276,445,757
4	NHS Trusts	33.7	22.3	11.1	5.4	283,000,000	£34,741,184
403	Review Coverage	37.1	21.0	10.6	5.1	29,538,368,791	£4,494,121,266

p/p/kwh shown is all in average pence per kwh purchased (total cost divided by total usage)

Easy comparisons of similar usages but very different cost values
